

Open the settings menu for your phone. The way to find this varies, depending on the manufacturer of the phone but it is usually an icon that resembles a *gear*. Scroll down and search for *app manager* or something with *app* in the name (you may also long press the app and drag up to the uninstall menu).

Once removed, open the *Play Store* and search for *Greene County*, The Tech Connect app should appear in the search results.

Select the app and select *Install*
